AGENDA

After gathering in Sarajevo for the 3rd Innovative Sustainable Economy Community of Practice (ISE CoP) on 2-4 April 2025 (read [News](#)), the 4th ISE CoP gathering on **29 October 2025** will be held online.

The **ISE CoP** is a key element to build a stronger network in the ISE Mission to increase the projects' impacts. The ISE CoP comprises **23 Thematic Projects (TPs)** and **2 Governance Projects** by offering a space of collective collaboration and learning.

We are currently more than **250 connected partners from 30 countries** with a dynamic representation of the 4-ple helix to strengthening Innovative Sustainable Economy in the Mediterranean. The ISE CoP comprises more than 64 public authorities, 46 academia and research organisations, 40 private sector stakeholders, and 35 partners representing civil society and NGOs.

The ISE CoP is organised in four actions: *Connect, Share, Learn, and Collaborate* among the different TPs. In this line, four **Thematic Working Groups (TWGs)** were launched in Sarajevo consisting of structured discussions leading to **White Papers**.

You can find all the **information exchanged** and results of the TWGs on the respective Basecamp channel (go to [MISSION – Innovative sustainable economy](#)). Read the most recent **ISE CoP report** in [here](#). Information will also be shared in the **ISEC Hub** Knowledge Sharing Space (go to [MIRO board](#)).

The upcoming online gathering will serve as an opportunity to **introduce the new TPs** (i.e., Call04), present the results from the previous TWGs (i.e., TPs' impact and demo-sites map), while allocating breaking rooms time to go deeper in **discussing joint solutions**, and working towards the definition of **quantitative indicators for the SDGs**.

Last, a *master class* style training will follow, dedicated to **Sustainable Financing Pathways** and following the insights from the training session held on 29th September online. More information in [here](#).

Event moderated by Thematic Community Project (TCP) partners
