Welcoming Call04 TPs meeting

Tuesday 20 May 2025 | 10:00-12:00h CET | online

REGISTRATION FORM & CONNECTION LINK

AGENDA

The Interreg Euro-MED **Innovative Sustainable Economy (ISE) Mission** Governance Projects want to welcome you into the Mission. Congratulations on your successful proposals! The ISE Mission consists of **19 Thematic Projects and 2 Governance Projects** that are the Thematic Community Project (TCP) and the Institutional Dialogue Project (IDP). Together, we promote just transitions to circular economies by developing technical knowledge and transferring new solutions into public policy. We link innovative solutions on the ground with strategic Mediterranean action plans working on four main activities: **Mapping Resources, Engaging the Community, Capacity Building, and Policy Impact**. The ISE Mission works to address specific challenges and contribute to sustainable development in 4 focus areas: **Marine Resources, Agri-Food Systems, Industrial Transition, and Resource Valorisation**. We scheduled a **welcome online meeting on the 20th of May 2025 (10-12h CET)**. It will be a great opportunity as well to introduce yourselves and provide a brief explanation of your projects. We hope you can join us! Otherwise, we will record the meeting and share the given presentation.

Event moderated by TCP lead partner
